

Position Announcement

July 6, 2009

Title: Extension Engineer

Unit: Texas AgriLife Extension Service, Biological and Agricultural Engineering Department, Texas A&M University, College Station, TX 77843-2117.

Duties: This person will work in our water district engineering program. With other team members, he/she will help design, implement and manage automation, telemetry, remote monitoring and control projects in irrigation districts.

Location: Texas AgriLife Research and Extension Center, Weslaco, Texas.

Qualifications: B.S. in Agricultural Engineering, Civil Engineering or closely related field. Willingness to learn hardware and software applications. Ability to work as a team member with minimum supervision. Good English language speaking and writing skills. Previous experience in SCADA helpful, but not required.

Preferred qualifications: EIT (Engineer in Training) certificate or ability to become an EIT.

Salary: Competitive, based on qualifications and experience.

Applications: Applications must be submitted on-line at <http://greatjobs.tamu.edu> Search under NOV (Notice of Vacancy) 04315.
